October 4, 2007

#### Members of the Board of Education Jordan School District

The Comprehensive Annual Financial Report of the Jordan School District for the fiscal year ended June 30, 2007, is submitted herewith.

The report is prepared in accordance with principles of accounting and financial reporting generally accepted in the United States of America applicable to governmental units. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. The District believes that the presentation of the report is accurate in all material respects, and that the financial position and results of operations of the various funds are presented fairly. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities are included.

#### **Report Format**

Designed to meet the needs of a broad spectrum of readers of financial statements, this Comprehensive Annual Financial Report is divided into three major sections:

- 1. Introductory Section—As the title indicates, this section introduces the reader to the report and includes this transmittal letter, the organization chart of the District with a summary of administrative responsibilities, and the Certificate of Achievement for Excellence in Financial Reporting awarded to Jordan School District by the Government Finance Officers Association.
- 2. Financial Section—This section includes the independent auditor's report, management's discussion and analysis, the basic financial statements (which includes the government-wide financial statements, the fund financial statements, and the notes to the basic financial statements), and supplementary information (the combining and individual fund statements and schedules).
- 3. Statistical Section—Although this section contains substantial financial information, these tables differ from financial statements in that they present non-accounting data, cover several years, and are designed to reflect social and economic data and financial and fiscal trends, as well as the fiscal capacity of the District.

#### **Internal Accounting Control**

The District's internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets.

#### **Independent Audit**

As required by Utah State law, an annual audit of the financial records, books of account, and the transactions of all administrative departments of Jordan School District was made by an independent auditor in accordance with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller of the United States. The auditor's opinion, as prepared by Squire & Company, PC, is included within the Financial Section of this report. The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. Furthermore, the auditors review certain elements of state legal compliance. The Single Audit and State Legal Compliance reports are issued separately.

#### **Management's Discussion and Analysis**

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in connection with it. The District's MD&A can be found immediately following the report of the independent auditor.

#### **Background**

Jordan School District was established in 1905 and provides elementary and secondary education. The District is located approximately 12 miles south of Salt Lake City and is comprised of urban, suburban, and rural areas encompassing the towns of Alta, Bluffdale, Copperton, Cottonwood Heights, Draper, Herriman, Midvale, Riverton, Sandy, South Jordan, and West Jordan, as well as surrounding unincorporated areas of Salt Lake County.

The State of Utah has 40 school districts with Jordan being the largest. Approximately 80,000 students are enrolled in the District. For the 2006-07 school year, the District had 89 schools—57 elementary schools, 17 middle schools, 10 high schools, 2 technical centers, and 3 special education schools. The average age of the District's 97 buildings is nearly 28 years.

#### The Reporting Entity

Jordan School District is a legally separate entity enjoying all rights and privileges accorded political subdivisions in the State of Utah. The District is fiscally independent and is governed by a Board of Education that is comprised of seven elected board members. The Board establishes District policies, determines its own budget, levies taxes, incurs bonded debt, and is independent of any other unit of local government.

#### **Budget Control**

The District adopts an annual budget for all revenues and expenditures, which acts as the financial operating plan for the entire year. State law requires a balanced budget. Utah Code Annotated, Section 53A-19-104, states, "A local school board may not make any appropriation in excess of its estimated expendable revenue, including undistributed reserves." The level of legal budgetary control is at the overall fund level. For further details on the budget, please see the notes to the basic financial statements.

#### **Prospects for the Future**

The District is optimistic about the future. The State of Utah and Wasatch Front continue to be excellent locations to do business. Enrollment growth is continuing in the District's northwest and southwest areas with some declining enrollments in other areas. Total enrollment is expected to increase about 1,800 students next year. The District's assessed valuation is steadily increasing as a result of residential development and increased activity in business and industry. The assessed valuation reached \$25.7 billion in 2006-07, an increase of 19.5 percent compared to 2005-06. Most of this growth in assessed valuation is offset by a corresponding reduction in the tax rate as required by State statute. However, the District is able to benefit from the increase in assessed valuation associated with new residential and commercial development. The new growth for 2007, 2006, and 2005 was \$1,962.6 million, \$1,224.7 million, and \$686.8 million, respectively.

The 2007 legislature increased the value of the weighted pupil unit (WPU) by 4.0 percent to \$2,514 for the 2007-08 school year. It is anticipated that the 2008 legislature will increase this appropriation by about three percent to \$2,589 for the 2008-09 school year.

#### **Debt Administration**

The District issues general obligation bonds to finance the construction and renovation of buildings, to purchase land, and equip schools. For details on the debt financing of the District, please see management's discussion and analysis and the notes to the basic financial statements.

#### **Cash Management**

The District primarily invests cash with the Utah Public Treasurers' Investment Fund that is available for use by all funds. The District's investment policies are governed by the Utah State Money Management Act (Utah Code Annotated 1953, Title 51, Chapter 7) in handling its depository and temporary investment transactions. The District has minimized the concern about uninsured or uncollateralized deposits by following the requirements of the Utah State Money Management Act. For details on what this law requires, please see the notes to the basic financial statements. In addition, the District has its own written investment policies which include making periodic reports to the Board of Education indicating fair values, maturity dates, yields, etc.

#### **Risk Management**

The District participates in the State Risk Management system. This is a pooled arrangement where participating entities pay annual premiums which are designed to pay claims and build sufficient reserves so the system will be able to protect the participating entities with its own capital. The District is self-insured for health and accident coverage provided to eligible employees. All employees are covered by the District's self-insured workers' compensation program. Unemployment compensation is handled on a cost-of-benefits reimbursement basis with the State of Utah.

#### **Post-Employment Benefits**

The District provides post-retirement benefits for eligible retirees, which are financed on a pay-as-you-go basis. The Board of Education modified these benefits on February 21, 2006. Additional information on these changes can be found in the notes to the basic financial statements. The District designated \$19.8 million for these benefits to assist in the transition.

#### **Major Initiatives and Events**

On February 4, 2003, voters in the District approved a \$281 million bond initiative and an increase of the Voted Leeway tax rate by 0.000600. The bond initiative passed with a 70 percent approval rating and the tax increase passed with a 60 percent approval rating. The proceeds from the sale of bonds are used to help finance new school construction, renovate existing schools, purchase additional school sites, and to equip schools. Bonds issued are as follows: \$10 million in May 2003, \$20 million in September 2003, \$15 million in October 2004, \$25 million in October 2005, and \$15 million in October 2006. The remaining \$196 million will be issued in October 2007. The increase in the Voted Leeway tax rate was to be phased in over ten years in three steps of 0.000200 to fund the operating costs of new schools. The first of these steps was implemented in the fiscal year ended June 30, 2005.

As of June 30, 2007, the District was at varying phases of construction on six new buildings in higher enrollment areas. One of these buildings opened for the 2007-08 school year.

#### **Challenges Facing the District**

Under recent legislation, large cities may now create their own school districts. Several communities within the District have taken steps to do this. Ultimately the voters in these communities will make this decision in the November 2007 general election. The potential educational and financial impacts to the new districts and the remaining district are not clear at this time. Whichever option the voters choose in November, the current District and the potential new districts will face challenges with its student population. Estimated enrollment for the 2007-08 school year is 80,545. This is 1,837 more students than the District enrolled in the 2006-07 school year and represents an increase of 2.3 percent. Generally speaking, the west areas of the District are experiencing student enrollment growth, while the east areas are declining. New schools must continue to be built in high growth areas because the geographic size of the District makes long-term busing from one area to another impractical from the standpoint of both time and cost. In declining enrollment areas, decisions regarding underutilized and aging buildings need to be made.

#### Long-term Financial Planning

The District's growth requires new construction of schools. The Capital Projects Fund balance is at an all-time high in preparation for this anticipated construction and due to construction delays. These new schools will require funds for annual operations and maintenance. The District has anticipated these costs and received voter approval for increasing the Voted Leeway. The remaining \$196 million in bond authorization is anticipated to be used over the next two years in the construction of several new schools. After three consecutive years of loss in the District's Internal Service Fund – Self Insurance, this fund had an operating gain. Due to the high volatility of expenses in this fund, the District has designated \$9.5 million in the General Fund, under Programs, to assist the Self Insurance Fund should it be needed. With increasing assessed valuations, the Debt Service Fund has not needed the anticipated tax increases to repay outstanding bonds.

#### **GFOA Certificate**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Jordan School District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2006. This was the twenty-first consecutive year that Jordan School District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

#### Acknowledgement

The preparation of the report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the business department. We would like to express appreciation to all of the members of the departments who assisted in the timely closing of the District's financial records and the preparation of this report.

Special appreciation is expressed to Larry W. Johnston, CPA, Director of Accounting, Budgets, and Audits; John N. Larsen, CPA, Accountant/Internal Auditor; and Jeri Clayton, Administrative Secretary, for their contribution in the preparation of this report.

We would also like to thank our Board president and other members of the Board of Education for their interest and support in conducting the financial affairs of Jordan School District for the 2006-07 fiscal year.

Respectfully sub	omitted,
Barry L. Newbol Superintendent	
D. Burke Jolley Deputy Superint	tendent for Business Services

#### SYNOPSIS OF ADMINISTRATIVE RESPONSIBILITIES

The following information is a synopsis of the positions identified on the line/staff chart on page 8, including titles, names, and primary areas of responsibility. Board members are listed first, followed by cabinet level positions.

#### Independent Auditor's Report

Board of Education Jordan School District

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jordan School District (the District) as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2007, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 14, 2007 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis which follows this report is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and

individual fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Agri & Company, PC

September 14, 2007

#### Management's Discussion and Analysis

As management of the Jordan School District (District), we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the fiscal year ended June 30, 2007. We encourage readers to consider the information presented here, in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 through 5 of this report.

#### **Financial Highlights**

- On October 25, 2006, the District issued \$15.0 million of general obligation school building bonds. The building bonds are to help finance the building or renovation of schools, the purchase of building sites, and to equip schools. The bonds are scheduled to be repaid over the next 15 years and bear interest from 4.0 to 4.125 percent.
- During this past fiscal year, the District started construction on three elementary schools, continued construction on two elementary schools and one alternative high school, and completed construction on two elementary schools. Total additions to capital assets (sites, improvements, buildings, equipment, and vehicles) were \$69.7 million for the year.
- The District's total net assets increased by \$110.7 million. This increase was due to a \$35.9 million net increase in capital assets net of depreciation, a \$12.4 million net decrease in bonds payable, a \$15.0 million increase in restricted net assets, mostly due to a slowing of construction and bond related expenses, and \$47.4 million increase in unrestricted net assets, mostly due to the positive variances of expenditures in the general fund.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements** – The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the assets and liabilities of the District, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the net assets of the District changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 22 through 23 of this report.

**Fund financial statements** – A *fund* is a group of related accounts that is used to maintain control over resources that are segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be grouped into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds** – *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, and the capital projects fund, each of which are considered to be major funds. Individual fund data for all major funds is provided in the form of *individual fund schedules* found on pages 50 through 55 of this report. Data from the other three governmental funds (the special revenue funds) are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of *combining* and *individual fund statements* and *schedules* found on pages 58 through 65 of this report.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement is provided, on page 28, for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 24 through 28 of this report.

**Proprietary funds** – The District maintains one proprietary fund type. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses one internal service fund (the self-insurance fund) to account for employee health and accident benefit services provided to all the other funds of the District. This internal service fund is included within *governmental activities* in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 29 through 31 of this report.

**Fiduciary funds** – Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs.

The District uses an agency fund (the student activities fund) to account for resources held for student activities and groups.

Individual fund data for the agency fund is provided in the form of an *individual fund statement* on pages 72 through 74 of this report. The basic fiduciary fund financial statement can be found on page 32 of this report.

**Notes to the basic financial statements** – The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 33 through 44 of this report.

#### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$772.7 million at the close of the most recent fiscal year.

# Jordan School District's Net Assets June 30, 2007 and 2006

	Governmental activities 2007 2006		(decrease) from fiscal 2006
Current and other assets Capital assets	\$ 539,281,419 695,296,891	\$ 442,079,229 659,363,769	\$ 97,202,190 35,933,122
Total assets	1,234,578,310	1,101,442,998	133,135,312
Other liabilities Long-term liabilities outstanding	282,525,539 179,304,542	241,702,220 197,686,280	40,823,319 (18,381,738)
Total liabilities Net assets:	461,830,081	439,388,500	22,441,581
Invested in capital assets, net of related debt	537,006,699	488,676,500	48,330,199
Restricted	112,212,338	97,215,481	14,996,857
Unrestricted	123,529,192	76,162,517	47,366,675
Total net assets	\$ 772,748,229	\$ 662,054,498	\$ 110,693,731

The largest portion of the District's net assets (69 percent) reflects its investment in capital assets (e.g., sites, site improvements, buildings, equipment, and vehicles, net of accumulated depreciation), less any related debt (general obligation bonds payable less unspent bond proceeds) used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net assets (15 percent) represents resources that are subject to external restrictions on how they may be used. The majority of the restricted balance is for capital projects. The remaining balance of the District's net assets is unrestricted net assets (16 percent). Unrestricted net assets may be used to meet the District's ongoing obligations to students, employees, creditors, and to honor next year's budget.

At the end of the current fiscal year, the District is able to report positive balances in all three categories of net assets, both for the District as a whole, as well as for its separate governmental activities. The same situation held true for the prior fiscal year.

Restricted net assets increased by \$15.0 million during the year ended June 30, 2007. This increase is largely the result of spending less than anticipated with steady capital project revenues.

Unrestricted net assets increased by \$47.4 million during the current fiscal year. This increase is mostly due to the results of operations in the general fund providing significant positive variances in most of the expenditure functions, especially the instruction function.

**Governmental activities** – The key elements of the increase of the District's net assets for the year ended June 30, 2007, are as follows:

- The largest dollar increase in revenues came from State and Federal sources in the form of grants and general revenues. This is mostly due to increased effort by the State to fund public education. The District also received increased funding from local property taxes and interest.
- In total, expenses decreased over the prior year. This is mostly due to a large increase in the compensated absence liability in the prior year in the instruction function. Other functions saw overall increases associated with salaries, insurance costs, student growth, number of personnel, building maintenance, student transportation, and technology costs.

#### Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds** – The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. At June 30, 2007, the District's governmental funds reported a combined fund balance of \$240.1 million, \$44.8 million higher than the previous year. Included in this year's change in the combined fund balance is an increase of \$34.9 million in funds reserved for capital

project related encumbrances, and an increase of \$29.8 million in the general fund due to positive budget variances. In addition, the following changes in revenues and expenditures should be noted:

- Although overall property tax revenues increased only \$2.7 million or 1.5 percent over the prior year, property tax revenues for the general fund increased \$7.7 million or 10.0 percent, due to new taxable property within the District and the reduction of tax rates in other funds. For example, the debt service funds property tax revenues decreased \$3.9 million or 10.5 percent over the prior year.
- Overall state aid increased by \$24.9 million or 9.5 percent, primarily as a result of increased state funding of Regular Basic K-12 and the Social Security/Retirement programs. The general fund received \$23.1 million of this increase.
- Expenditures for the general fund totaled \$381.2 million, an increase of 4.3 percent during the fiscal year. Instruction represents 66.7 percent of general fund expenditures.
- General fund salaries totaled \$235.2 million while the associated fringe benefits of retirement, social security, unemployment, industrial insurance, and health and accident insurance added \$98.7 million to arrive at 87.6 percent of total general fund expenditures.
- Expenditures for the capital projects fund totaled \$68.1 million, an increase of 13.8 percent during the fiscal year. Other local revenue in the capital projects fund increased \$4.3 million, due to increased interest earnings and a land donation.

Governmental funds report the differences between their assets and liabilities as fund balance, which is divided into reserved and unreserved portions. Reservations indicate the portion of the District's fund balances that are not available for appropriation. The unreserved fund balance is, in turn, subdivided between designated and undesignated portions. Designations reflect the District's self-imposed limitation on the use of otherwise available expendable financial resources in governmental funds. Undesignated balances in the general fund are required by state law to be appropriated in the following year's budget. Fund balances of debt service, capital projects, and other governmental funds are restricted by state law to be spent for the purpose of the fund and are not available for spending at the District's discretion. At June 30, 2007, the District's combined governmental fund balance is \$240.1 million (\$78.1 million in reserved fund balance, \$70.8 million in designated fund balance, and \$91.2 million in undesignated, unreserved fund balance).

#### **General Fund Budgetary Highlights**

During the year, the Board revised the District's budget. Budget amendments were to reflect changes in programs and related funding. The difference between the original budget and the final amended budget was an increase of \$7.4 million or 1.8 percent in total general fund expenditures. The most significant difference is the increase in supporting services-instructional staff due to expenditure-driven federal and state grants which, for budgeting purposes, are assumed to be spent down each year.

Final budgeted revenues exceeded original budgetary estimates by \$31.6 million or 7.9 percent, mostly to account for anticipated increases in federal and state revenue due to expenditure-driven grants.

With these adjustments, actual expenditures were \$46.5 million below final budgeted amounts. The most significant positive variances were \$37.2 million in instruction and \$5.1 million in supporting services-instructional staff. Actual revenues were \$25.2 million below final budgeted amounts. Variances primarily result from expenditure-driven federal and state grants that are included in the budgets at their full amounts. Such grants are recognized as revenue when the qualifying expenditures are incurred and all other grant requirements are met; unspent grant amounts are carried forward and included in the succeeding year's budget. Therefore, actual grant revenues and expenditures are normally less than the amounts budgeted.

Designations of fund balance are also budgeted each year. The two largest designations are undistributed reserve and retiree benefits. Under Utah State law, school districts are allowed to designate up to five percent of the general fund's budgeted expenditures for contingencies and emergencies. The law calls this designation the undistributed reserve. The District has designated five percent of the current year's budgeted expenditures for undistributed reserve. The District has also designated an amount to help cover the cost of benefits promised to current and future retirees. Details of these benefits are in the notes to the basic financial statements.

#### **Capital Asset and Debt Administration**

Capital assets – The capital projects fund is used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District. The District has six new schools under construction, with an anticipated total cost of \$98.1 million. Total additions to capital assets (sites, improvements, buildings, equipment, and vehicles) were \$69.7 million for the year.

Capital assets are outlined below:

#### Jordan School District's Capital Assets (Net of accumulated depreciation) June 30, 2007 and 2006

	Governmen	tal activities	
	2007	2006	Change
Sites and improvements Construction in progress	\$ 72,283,044 20,031,944	\$ 63,091,964 20,100,600	\$ 9,191,080 (68,656)
Buildings and improvements Furniture and equipment	546,321,991 44,423,728	520,205,654 44,633,928	26,116,337 (210,200)
Vehicles	12,236,184	11,331,623	904,561
Total capital assets	\$ 695,296,891	\$ 659,363,769	\$ 35,933,122

Additional information on the District's capital assets can be found in Note 3 to the basic financial statements.

**Debt administration** – On February 4, 2003, a bond election was held and \$281 million in general obligation school building bonds were authorized; 70 percent of votes cast were in favor of the issuance of bonds. The bonds are to finance the building and renovation of schools, the purchase of building sites, and to equip schools. The District issued \$10 million of bonds dated May 15, 2003, with interest rates from 2.00 to 4.00 percent and a maturity date of June 15, 2017. The District issued \$20 million of bonds dated September 15, 2003, with interest rates from 2.50 to 4.20 percent and a maturity date of June 15, 2018. The District issued \$15 million of bonds dated October 1, 2004, with interest rates from 3.00 to 4.00 percent and a maturity date of June 15, 2019. The District issued \$25 million of bonds dated October 1, 2005, with interest rates from 3.50% to 4.125% and a maturity date of June 15, 2020. The District issued \$15 million of bond dated October 1, 2006, with interest rates from 4.00% to 4.125% and maturity date of June 15, 2021. Fitch Ratings and Moody's Investment Service have given these bonds an underlying rating of 'AAA' and 'Aa1,' respectively.

The general obligation bonded debt of the District is limited by state law to four percent of the fair market value of the total taxable property in the District. The legal debt limit at June 30, 2007, is \$1,514.7 million. Net bonds payable at June 30, 2007, is \$158.3 million, resulting in a legal debt margin of \$1,356.4 million.

### Jordan School District's Outstanding General Obligation Debt June 30, 2007 and 2006

	Governmen		
	2007 2006		Change
General obligation bonds	\$ 159,285,000	\$ 171,915,000	\$ (12,630,000)
Deferred amounts	(994,808)	(1,227,731)	232,923
Net bonds payable	\$ 158,290,192	\$ 170,687,269	\$ (12,397,077)

Additional information on the District's long-term debt can be found in Note 4 to the basic financial statements.

#### **Requests for Information**

This financial report is designed to provide a general overview of Jordan School District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Deputy Superintendent for Business Services, Jordan School District, 9361 South 300 East, Sandy Utah 84070-2998.

# Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets

June 30, 2007

Total fund balance - governmental funds	\$ 240,050,152
Total net assets reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of the assets is \$993,659,089 and the accumulated depreciation is \$298,362,198 (see Note 3).	695,296,891
Property tax revenue is recognized when levied (claim to resources established) rather than when "available." The portion not available soon enough to pay for the current period's expenditures is deferred in the funds.	3,756,212
Bond issuance costs are reported as expenditures in the governmental funds. The cost is \$1,778,261 and accumulated amortization is \$563,781.	1,214,480
An internal service fund is used by the District's management to charge the costs of health and life insurance benefits to individual funds. The assets and liabilities of the internal service fund are included with governmental activities.	9,254,293
Certain retirement benefit payments in excess of actuarially required amounts are recognized as expenditures in governmental funds.	2,746,491
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.	(265,748)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the governmental funds (see Note 4).	(179,304,542)
Total net assets - governmental activities	\$ 772,748,229

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended June 30, 2007

Net	change in	fund	balances-total	governmental	funds
1101	Citalige III	IUIIU	Dalalices-total	uoverriileritai	IUIIUS

\$ 44,798,414

The change in net assets reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation and related items in the current period.

Capital outlays	\$ 69,662,684	
Loss on disposal of capital assets	(35,243)	
Gain on sale of capital assets	126,348	
Proceeds from sales of capital assets	(179,946)	
Depreciation expense	(33,640,721)	35,933,122

The governmental funds report bond proceeds as an other financing source, while repayment of bond principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in in the treatment of general obligation bonds and related items is as follows:

Bonds issued	(15,000,000)	
Bond premium	(115,400)	
Bond issuance costs	133,444	
Repayment of bond principal	27,630,000	
Bond interest expense	(9,707)	
Amortization of deferred amounts on refunding	(634,704)	
Amortization of bond issuance costs	(136,625)	
Amortization of bond premium	517,181	12,384,189

Property taxes that are not collected for several months after the District's fiscal year end are not considered as available revenues in the governmental funds and are, instead, counted as deferred revenues. They are however, recorded as revenues in the statement of activities.

316,598

In the statement of activities, certain operating expenses -- compensated absences (vacations) and termination benefits (early retirement) -- are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). During this year, compensated absences decreased by \$681,751 and early retirement payable decreased by \$5,302,910.

5.984,661

The actuarially required amount to be paid for certain retirement costs is recorded as an expense in the statement of activities whereas in governmental funds only the amount actually paid is recorded as an expenditure. Actual payments exceeded actuarially required amounts on cash stipends by \$539,863 and on health care by \$2,206,628.

2,746,491

An internal service fund is used by the District to charge the costs of health and life insurance benefits to individual funds. The net gain of the internal service fund is reported with governmental activities.

8,530,256

Change in net assets of governmental activities

\$ 110,693,731

# NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2007

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Jordan School District (the District) are in conformity with accounting principles generally accepted in the United States of America applicable to local governmental units in general and Utah school districts in particular. The following is a summary of the more significant policies.

The Reporting Entity – The District was established in 1905 and provides elementary and secondary education in southern Salt Lake County, Utah. The Board of Education, comprised of seven elected officials, is the primary governing authority for the District. The Board establishes District policies, approves the budget, appoints a superintendent with responsibilities for administering all educational activities of the District, and appoints a business administrator with responsibilities for fiscal matters. The Board is authorized to issue bonds, incur short-term debt, levy property taxes, and is independent of any other unit of local government.

These basic financial statements present the activities of the District and its component unit, the *Jordan Education Foundation*, for which the District is considered to be financially accountable. The District is not a component unit of any other primary government. Although a legally separate entity, a blended component unit is, in substance, part of the District's operations.

• Blended Component Unit – The Jordan Education Foundation is a nonprofit organization established under Internal Revenue Service regulations as a conduit for tax-deductible contributions to the District. The Foundation's board is approved by the Board of Education. The Foundation exclusively serves the District. The District makes all personnel decisions for the Foundation and pays for all operating costs of the Foundation. The Foundation is presented as a special revenue fund of the District.

**Government-wide Financial Statements** – The statement of net assets and the statement of activities report information on all of the nonfiduciary activities of the District and the Foundation. As a general rule the effect of interfund activity is eliminated from the government-wide financial statements (e.g. internal service fund activity, indirect cost charges to programs). Some minor interfund services provided and used are not eliminated in the process of consolidation (e.g. printing).

The statement of activities presents the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Indirect expense allocations made in the funds are reversed for the statement of activities. Depreciation expense for capital assets specifically identified with a function is included in its direct expenses. Depreciation expense for "shared" capital assets (for example, a school building is used primarily for instruction, school administration, operation and maintenance of the building, and nutrition services) is ratably included in the direct expenses of the appropriate functions. Interest on long-term liabilities is considered an indirect expense and is presented as a separate line. Program revenues include: a) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and b) grants and contributions that are restricted to meeting the operating or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements** – The fund financial statements provide information about the District's funds, including its fiduciary fund and blended component unit. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as insurance premiums, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as interest, result from non-exchange transactions or ancillary activities. Operating expenses result from transactions directly associated with the fund's principal services.

The District reports the following major governmental funds:

- **General Fund** The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.
- **Debt Service Fund** The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on general obligation bonds payable.
- Capital Projects Fund The Capital Projects Fund accounts for the resources accumulated and payments made for the acquisition of capital assets and construction of major capital projects.

Additionally, the District reports the following fund types:

- Internal Service Fund The Self-Insurance Fund (a proprietary fund) is the only internal service fund used by the District and accounts for the activities associated with the District's self-insurance plan covering employee health and accident claims. Premiums are charged to the District's other funds to cover anticipated costs.
- **Agency Fund** The *Student Activities Fund* (a fiduciary fund) accounts for the receipt and disbursement of monies held on behalf of student activity organizations.

Measurement Focus and Basis of Accounting – The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary fund, and agency fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District receives value without directly giving equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements are satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District's policy is to consider revenue available if it is expected to be collected within sixty days following the close of the fiscal year, or within thirty days of the fiscal year-end in the case of property tax revenue. Property taxes and interest are considered to be susceptible to accrual. Other receipts become measurable and available when cash is received by the District and are recognized as revenue at that time. Expenditure-driven grants are recognized as revenue when the qualifying expenditures are incurred and all other grant requirements are met; grants received in advance are recorded as deferred revenue until earned. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term liabilities, claims and judgments, early retirement and post-employment health care benefits, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term liabilities and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

**Budgets and Budgetary Accounting** – The District operates within budget requirements for school districts as specified by state law and as interpreted by the State Superintendent of Public Instruction. Budgets are prepared in accordance with accounting principles generally accepted in the United States of America using the modified accrual basis of accounting for all governmental funds, excluding the *Jordan Education Foundation* (special revenue fund), and on the accrual method for the *Self-Insurance Fund* (internal service fund). The budget for the *Self-Insurance Fund* is not legally required for budgetary control; this budget is for management purposes. Budgets are not adopted on a District level for the *Jordan Education Foundation* (special revenue fund) and the *Student Activities Fund* (agency fund). All annual appropriations lapse at fiscal year-end. These financial reports reflect the budgetary standards on the next page:

- For the fiscal year beginning July 1, the business administrator prepares a proposed budget for all funds which is presented to the Board of Education by the superintendent on or before June 1.
- After a public hearing is held, the Board of Education, by resolution, legally adopts the final budget no later than June 22.
- Once adopted, the budget can be amended by subsequent Board action. Reductions in appropriations can be
  approved by the Board upon recommendation of the superintendent; however, increases in appropriations at the
  overall fund level require a public hearing prior to amending the budget. In accordance with Utah State law and
  with Board policy, administration may make interim adjustments from one appropriation (at the program,
  function, or object level) to another within any given fund without seeking the immediate approval of the Board.
  The Board approves these changes later in the year.
- The total budgeted expenditures of a given fund may not exceed the expected revenues for the fiscal year plus the fund balance. Control of the budget is exercised at the overall fund level.
- Interim adjustments in estimated revenue and appropriations during the year ended June 30, 2007 are included in the final budget approved by the Board, as presented in the financial statements.
- Expenditures may not legally exceed budgeted appropriations at the fund level.

**Encumbrances** – Encumbrance accounting, under which purchase orders for goods and services are recorded in order to restrict that portion of the applicable appropriation, is used to facilitate comparisons with budgets. Outstanding encumbrances lapse at year-end and are reported as reserved fund balances because they do not constitute expenditures or liabilities. The District intends to honor these commitments and provides for the expenditure in the subsequent year.

**Deposits and investments** – The cash balances of substantially all funds are pooled and invested by the District. Deposits and investments are reported at fair value. Earnings on pooled funds are allocated to the funds based on the average balance of each participating fund.

**Inventories** – Inventories are accounted for under the consumption method, wherein inventories are recorded as assets when acquired and expenditures are recorded when the inventories are transferred to the schools for consumption. Inventories recorded in the governmental funds are stated at cost or, if donated, at fair value when received, using a weighted moving average method. Inventories reported in the governmental funds are equally offset by a reservation of fund balance, indicating that they do not constitute "available spendable resources" even though they are a component of total assets.

Capital Assets – All purchased or constructed capital assets costing more than \$2,000 or which meet other criteria are capitalized and reported at cost or estimated historical cost in the government-wide financial statements. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized in the government-wide financial statements. Donated capital assets are recorded at their estimated fair value at the date of donation. Interest incurred during the construction of capital assets is not capitalized. The District does not purchase nor construct infrastructure (public domain) assets. Capital assets are recorded as expenditures in the governmental fund financial statements at the time of purchase or construction. Depreciation is provided on capital assets using the straight-line method over their estimated useful lives as follows:

Site improvements	. 40 years
Buildings	. 40 years
Furniture and equipment	. 10 years
Vehicles	. 10 years

**Undistributed Reserve** – Utah state law allows school districts to establish an "undistributed reserve" for contingencies. Because this is a District imposed restriction, the undistributed reserve is reported as a designation in the General Fund balance sheet. According to state law, the District may not use undistributed reserves in the negotiation or settlement of contract salaries for District employees and this designation must not exceed five percent of the General Fund's budgeted expenditures. The expenditure of the reserve requires a written resolution adopted by a majority vote of the District's Board of Education filed with the Utah State Office of Education and State Auditor.

**Statement of Cash Flows** – For the statement of cash flows for the proprietary fund, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. Investments in the Public Treasurers' Investment Fund are considered cash equivalents.

**Variances between Budget and Actual Data** – Expenditure-driven grants are included in the budgets at their full amounts. Such grants are recognized as revenue when the qualifying expenditures are incurred and all other grant requirements are met; unspent grant amounts are carried forward and included in the succeeding fiscal year's budget. Therefore, actual grant revenues and expenditures are normally less than the amounts budgeted.

#### 2. DEPOSITS AND INVESTMENTS

Deposits and investments are carried at fair value. A reconciliation of cash and investments at June 30, 2007, as shown on the financial statements is as follows:

Carrying amount of deposits Carrying amount of investments:	\$ 6,146,305
Mutual funds Public Treasurers' Investment Fund	533,631 316,031,728
Total cash and investments	\$ 322,711,664
Governmental funds cash and investments Internal service fund cash and investments	\$ 292,891,120 21,559,289
Statement of net assets cash and investments Agency fund cash and investments	314,450,409 8,261,255
Total cash and investments	\$ 322,711,664

The District complies with the State Money Management Act (Utah Code Section 51, Chapter 7) (Act) and related Rules of the Money Management Council (Council) in handling its depository and investing transactions. District funds are deposited in qualified depositories as defined by the Act. The Act also authorizes the District to invest in the Utah Public Treasurers' Investment Fund (PTIF), certificates of deposit, US Treasury obligations, US agency issues, high-grade commercial paper, banker's acceptances, repurchase agreements, corporate bonds, money market mutual funds, and obligations of governmental entities within the State of Utah.

The PTIF is authorized and makes investments in accordance with the Act. The Council provides regulatory oversight for the PTIF. Participant accounts with the PTIF are not insured or otherwise guaranteed by the State of Utah. Participants in the PTIF share proportionally in the income, costs, gains and losses from investment activities. The degree of risk of the PTIF depends upon the underlying portfolio.

The Act and Council rules govern the financial reporting requirements of qualified depositories in which public funds may be deposited and prescribe the conditions under which the designation of a depository shall remain in effect. The District considers the rules of the Council to be necessary and sufficient for adequate protection of its uninsured bank deposits.

Rules of the Council allow Jordan Education Foundation to invest private grants, contributions, and endowments in any deposit or investment authorized by the Act and certain investment funds, equity securities, fixed-income securities, and investment strategies with institutions that meet certain restrictions.

All of the District's investments are with the PTIF. The Foundation has deposits separate from the District and invests some private funds through a broker.

**Deposits** – At June 30, 2007, the District (including the *Student Activities Fund*) and the Foundation have the following deposits with financial institutions:

	Carrying	Bank	Amount
	Amount	Balance	Insured
Jordan School District	\$ 6,139,300	\$ 16,388,998	\$ 808,946
Jordan Education Foundation	7,005	11,425	11,425
Total deposits	\$ 6,146,305	\$ 16,400,423	\$ 820,371

• Custodial Credit Risk – Custodial credit risk for deposits is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk. At June 30, 2007, \$15,580,052 of the District's bank deposits was uninsured and uncollateralized. No deposits are collateralized nor are they required to be by state statute.

**Investments** – The District and Foundation's investment in the PTIF has a maturity of less than one year and has a fair value of \$315,487,424 and \$544,304, respectively. The Foundation's investment in mutual funds is invested in common stocks, has a maturity of one year or less, and has a fair value of \$533,631.

- Interest Rate Risk Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy for interest rate risk but manages its exposure to interest rate risk by complying with the Act, which requires that the remaining term to maturity of investments not exceed the period of availability of the funds invested. Except for endowments, the Act further limits the remaining term to maturity on all investments in commercial paper and banker's acceptances to 270 days or less and fixed-income securities to 365 days or less. In addition, variable-rate securities may not have a remaining term to final maturity exceeding two years. The Foundation can invest private funds in fixed-income securities with a dollar-weighted average maturity not to exceed ten years.
- Credit Risk Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District does not have a formal investment policy for credit risk but manages it's exposure to credit risk by complying with the Act and related rules. The Act and related rules limit investments in commercial paper to a first tier rating and investments in fixed-income and variable-rate securities to a rating of A or higher as rated by Moody's Investors Service, Inc. or by Standard and Poor's Corporation. The District has no investment policy that would further limit its investment choices. The District's investment in the PTIF and the Foundation's investment in mutual funds are not rated.
- Concentration of Credit Risk Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District does not have a formal investment policy for concentration of credit risk but manages this risk by complying with the Act and related rules. The Act limits investments in commercial paper and or corporate obligations to five percent of the District's total portfolio with a single issuer. The District places no other limits on the amount it may invest in any one issuer. The Foundation can invest private funds in certain equity and fixed-income securities provided no more than five percent of all funds are invested in any one issuer and no more than twenty-five percent of all funds are invested in a particular industry. Also, for the Foundation's investments in private funds, no more than seventy-five percent may be invested in equity securities and no more than five percent in collateralized mortgage obligations.
- Custodial Credit Risk Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District does not have a formal investment policy for custodial credit risk but manages this risk by complying with the Act and related rules. The District places no other limit on the amount of investments to be held by counterparties. The Foundation's investments are held in a brokerage account which is covered by Securities Investor Protection Corporation up to \$500,000.

#### 3. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2007, is as follows:

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Governmental activities:				
Capital assets, not being depreciated				
Sites	\$ 41,258,216	\$ 4,659,305	\$ (82,697)	\$ 45,834,824
Construction in progress	20,100,600	19,268,762	(19,337,418)	20,031,944
Total capital assets, not being depreciated	61,358,816	23,928,067	(19,420,115)	65,866,768
Capital assets, being depreciated:				
Site improvements	31,392,320	6,048,890	-	37,441,210
Buildings	733,774,072	45,560,144	(2,342,672)	776,991,544
Furniture and equipment	88,234,029	10,071,428	(7,474,533)	90,830,924
Vehicles	21,417,110	3,391,573	(2,280,040)	22,528,643
Total capital assets, being depreciated	874,817,531	65,072,035	(12,097,245)	927,792,321
Accumulated depreciation for:				
Site improvements	9,558,572	1,434,418	-	10,992,990
Buildings	213,568,418	19,443,807	(2,342,672)	230,669,553
Furniture and equipment	43,600,101	10,281,628	(7,474,533)	46,407,196
Vehicles	10,085,487	2,480,868	(2,273,896)	10,292,459
Total accumulated depreciation	276,812,578	33,640,721	(12,091,101)	298,362,198
Total capital assets, being depreciated, net	598,004,953	31,431,314	(6,144)	629,430,123
Governmental activity capital assets, net	\$ 659,363,769	\$ 55,359,381	\$ (19,426,259)	\$ 695,296,891

Depreciation expense for the year ended June 30, 2007 was charged to functions of the District as follows:

#### Governmental activities:

Instruction	\$ 25,068,654
Supporting services:	
Instructional staff	121,306
General district administration	1,249,345
School administration	955,632
Operation and maintenance of school buildings	2,630,173
Student transportation	2,271,671
Nutrition services	1,343,940
Total depreciation expense, governmental activities	\$ 33,640,721

#### 4. LONG-TERM LIABILITIES

Long-term liability activity for the year ended June 30, 2007, is as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year	
Governmental activities:						
Bonds payable:						
General obligation bonds	\$ 171,915,000	\$ 15,000,000	\$ (27,630,000)	\$ 159,285,000	\$ 19,965,000	
Deferred amounts for issuance						
premiums	3,548,610	115,400	(517,181)	3,146,829	-	
Deferred amounts on refundings	(4,776,341)		634,704	(4,141,637)		
Total bonds payable, net	170,687,269	15,115,400	(27,512,477)	158,290,192	19,965,000	
Compensated absences	10,922,064	2,254,604	(2,936,355)	10,240,313	2,902,469	
Early retirement payable	16,076,947		(5,302,910)	10,774,037	4,446,491	
Total governmental activity long-term liabilities	\$ 197,686,280	\$ 17,370,004	\$ (35,751,742)	\$ 179,304,542	\$ 27,313,960	

**General Obligation Bonds Payable** – Bonds payable at June 30, 2007, are comprised of the following general obligation issues and are serviced by property tax revenues received by the Debt Service Fund:

				Remaining			Current
			Original	Interest Rate	Final Maturity	(	Outstanding
Series	Purpose		Amount	Range	Date		Balance
August 1, 1997	Bond Refunding	\$	37,870,000	5.25%	June 15, 2010	\$	8,645,000
July 1, 1998	School Building		50,000,000	5.00%	June 15, 2008		3,575,000
August 1, 1999	School Building		14,500,000	5.13%	June 15, 2009		2,000,000
October 15, 2000	School Building		14,500,000	5.00%	June 15, 2010		2,925,000
September 15, 2001	School Building		10,000,000	4.00% to 4.55%	June 15, 2016		6,660,000
September 15, 2002	Bond Refunding		39,540,000	3.00% to 4.00%	June 15, 2015		31,225,000
May 15, 2003	School Building &		20,200,000	2.25% to 4.00%	June 15, 2017		7,610,000
	Bond Refunding						
September 15, 2003	School Building		20,000,000	3.00% to 4.20%	June 15, 2018		15,600,000
March 1, 2004	Bond Refunding		30,585,000	4.00% to 4.50%	June 15, 2012		30,585,000
October 1, 2004	School Building		15,000,000	3.00% to 4.00%	June 15, 2019		12,425,000
October 1, 2005	School Building		25,000,000	3.50% to 4.13%	June 15, 2020		23,985,000
October 1, 2006	School Building		15,000,000	4.00% to 4.13%	June 15, 2021		14,050,000
Total general obligat	ion bonds payable as	of .	June 30, 2007			\$	159,285,000

All bonds are rated 'AAA' based on the guaranty provided by the Utah School Bond Default Avoidance Program. The District has an underlying rating of 'AAA' by Fitch Investors Service, Inc., and 'Aa1' by Moody's, as of the date of this Comprehensive Annual Financial Report. Debt service requirements to maturity, including interest for the general obligation bonds payable, are summarized on the next page:

Year Ending June 30	Principal		Interest	 Total
2008	\$ 19,965,000	\$	6,469,013	\$ 26,434,013
2009	19,755,000		5,632,568	25,387,568
2010	20,630,000		4,777,574	25,407,574
2011	18,305,000		3,936,749	22,241,749
2012	19,040,000		3,231,818	22,271,818
2013-2017	45,820,000		8,057,152	53,877,152
2018-2021	15,770,000		1,277,175	 17,047,175
Total	\$ 159,285,000	\$	33,382,049	\$ 192,667,049

**Bond Election** – On February 4, 2003, a bond election was held and \$281 million in general obligation school building bonds were authorized. The bonds are to finance the building or renovation of schools, the purchase of building sites, and to equip schools. The District issued \$10 million of bonds dated May 15, 2003, with interest rates from 2.00 to 4.00 percent and a maturity date of June 15, 2017. The District issued \$20 million of bonds dated September 15, 2003, with interest rates from 2.50 to 4.20 percent and a maturity date of June 15, 2018. The District issued \$15 million of bonds dated October 1, 2004, with interest rates from 3.00 to 4.00 percent and a maturity date of June 15, 2019. The District issued \$25 million of bonds dated October 1, 2005, with interest rates from 3.50 to 4.13 percent and a maturity date of June 15, 2020. The District issued \$15 million of bonds dated October 1, 2006, with interest rates from 4.00 to 4.13 percent and a maturity date of June 15, 2021. At June 30, 2007, \$196 million of authorized bonds remain unissued.

**Prior-year Defeasance of Debt** – On September 24, 2002, the District defeased callable portions of the general obligation bonds dated December 1, 1993, January 1, 1995, July 1, 1998, August 1, 1999, and October 15, 2000, by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the callable portions of the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On December 15, 2003, the trust redeemed \$4,575,000 of these defeased bonds. On June 15, 2005, the trust redeemed \$2,385,000 of these defeased bonds. As of June 30, 2007, \$28,910.000 of bonds outstanding are considered defeased by this bond issuance.

On February 24, 2004, the District defeased callable portions of the general obligation bonds dated June 15, 1997, and July 1, 1998, by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the callable portions of the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On June 15, 2007, the trust redeemed \$27,245,000 of these defeased bonds. As of June 30, 2007, \$3,750,000 of bonds outstanding are considered defeased by this bond issuance.

Compensated Absences – The District accrues vacation for twelve-month or full-year contract employees. Employees accrue between ten and twenty days each year depending upon length of service with the District, generally limited to a maximum number of days earned for one year. The District is liable to the employee for days earned but not taken. If an employee terminates, then payment is made; otherwise, scheduled vacation time off is allowed. Additionally, retiring employees, employed before June 30, 2006, are eligible to receive an unused sick leave bonus from the District. This bonus ranges from 25 to 30 percent of the value of sick leave accumulation, and is paid only upon retirement. At June 30, 2007, the District estimates these obligations for qualifying employees, to be \$10,240,313 and will be paid by the General Fund.

**Early Retirement Payable** – For a description of the District's early retirement incentive program, please see Note 10. District Termination Benefits.

#### 5. TRANSFERS

During the year ended June 30, 2007 the District made two transfers between funds. The District transferred \$6,309,140 from the Capital Projects Fund to the General Fund to cover expenditures in the General Fund for supplies, equipment, and textbooks. This represents the amount received from the Ten Percent of Basic tax levy which by State law is collected in the Capital Projects Fund but is used for the above listed General Fund expenditures. The District also transferred \$220,381 from the General Fund to the Jordan Education Foundation Special Revenue Fund to cover administration expenditures of the Jordan Education Foundation. The net transfer into the General Fund is therefore \$6,088,759.

#### 6. COMMITMENTS

The District has six new schools under construction, with an anticipated total cost of \$98,081,700. As of June 30, 2007, \$20,303,489 was spent on these buildings and their contents, leaving an estimated \$77,778,211 as future costs. At June 30, 2007 the District has \$66,501,698 in open purchase orders for capital projects. The District anticipates spending \$104,655,000 for fiscal year 2007-08 building projects and \$46,107,549 for other capital asset purchases. The unreserved, undesignated fund balance in the Capital Projects Fund at June 30, 2007, is \$27,757,691, which will be used, along with future bond issues and tax proceeds, to fund these projects.

#### 7. PROPERTY TAXES

The budgeting and accounting for property taxes are handled on a modified accrual basis, with appropriate recognition of property taxes receivable at year-end. The District has recorded a property tax receivable for the delinquent property taxes due and for the taxes assessed January 1. The District has recorded a corresponding property tax deferral for taxes assessed January 1 but not due and collectible within thirty days of the end of the fiscal year. The property tax revenue of the District is collected and distributed by the Salt Lake County Treasurer as an agent for the District.

Utah statutes establish the process by which taxes are levied and collected. The County Assessor is required to assess real property as of January 1 and complete the tax rolls by May 22. By July 22, the County Auditor is to mail assessed value and tax notices to property owners. A taxpayer may petition the County Board of Equalization within 30 days of receipt of the tax notice for a revision of the assessed value. The County Auditor makes approved changes in assessed values by November 1. On this same date the Auditor is to deliver the completed assessment rolls to the County Treasurer. Tax notices are mailed with a due date of November 30. Delinquent taxes are subject to a 2 percent penalty of the property tax due, with a \$10 minimum penalty. If delinquent taxes and penalties are not paid by January 15 of the following year, these delinquent taxes, including penalties, are subject to an interest charge at a rate determined by the County; the interest period is from January 1, until the taxes are paid. If in May of the fifth year the taxes remain delinquent, the County advertises and sells the property at a tax sale.

#### 8. STATE RETIREMENT PLANS

**Defined Benefit Plans** – The District contributes to the State and School Contributory Retirement System and the State and School Noncontributory Retirement System (collectively, the Systems), which are cost-sharing multiple-employer defined benefit pension plans administered by the Utah Retirement Systems (URS). URS provides refunds, retirement benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries in accordance with retirement statutes.

The Systems are established and governed by the respective section of Chapter 49 of the Utah Code Annotated 1953, as amended. The Utah Retirement Office Act in Chapter 49 provides for the administration of the URS and Plans under the direction of the Utah State Retirement Board whose members are appointed by the Governor. The Systems issue a publicly available financial report that includes financial statements and required supplementary information for the Systems. A copy of the report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, Utah 84102 or by calling 1-800-365-8772.

Plan members in the State and School Contributory Retirement System are required to contribute 1.00 percent of annual covered salary, and the District contributes 14.73 percent of annual covered salary. In the State and School Noncontributory Retirement System the District is required to contribute 14.22 percent of annual covered salary.

The contribution rates are the actuarially determined rates. The contribution requirements of the Systems are authorized and specified by statute and by the Utah State Retirement Board.

The District's contributions to the State and School Contributory Retirement System for the years ended June 30, 2007, 2006, and 2005 were \$519,616, \$594,874, and \$615,354, respectively, and employee contributions were \$35,277, \$42,828, and \$44,303. The District's contributions to the State and School Noncontributory Retirement System for the years ended June 30, 2007, 2006, and 2005 were \$28,024,775, \$25,209,894, and \$24,075,984, respectively. The contributions were equal to the required contributions for each year.

**Defined Contribution Plans** – The District participates in a defined contribution plan, under Internal Revenue Code Section 401(k), to supplement retirement benefits accrued by participants in the Systems. Employees covered by the State and School Noncontributory Retirement System have a contribution of 1.5 percent of salary automatically made by the District. During the years ended June 30, 2007, 2006, and 2005, employer contributions were \$3,823,868, \$3,215,226, and \$2,970,269, respectively. Employees who are participants of the Systems can make additional contributions. These employee contributions were \$6,128,758, \$7,171,571, and \$5,814,561, respectively, for the same periods. The 401(k) plan funds are fully vested to the participants at the time of deposit. Plan assets are administered and held by URS. Plan provisions and contribution requirements are established by state statute and may be amended by the State.

The District also offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time employees, permits them to defer a portion of their salary until future years. Employees are eligible to voluntarily participate from the date of employment and are vested immediately upon participating. Employee contributions to the Section 457 plan totaled \$683,035 for the year ended June 30, 2007. The assets of the plan are administered and held by URS. Plan provisions and contribution requirements are established by state statute and may be amended by the State.

#### 9. DISTRICT RETIREMENT PLANS

**Plan Descriptions** – Under the authority of the Board of Education and District Policy, the District self-administers the single-employer retirement plans described below.

Beginning July 1, 2006, the District offers retirement benefit stipends to employees retiring under the guidelines of the Utah Retirement Systems. These benefits are based on the tenure and salary of the employees as of June 30, 2006, effectively eliminating the benefit over a period of time and "freezing" the total future liability of the District. The accounting for these benefits began in fiscal year 2006-07 as new benefits.

The District also provides post-employment health-care benefits to employees who retire with the Utah Retirement Systems. Retirees are permitted to participate with active employees in the health-care plan but retirees must pay all premiums assigned to them as described below. Those employees retiring before July 1, 2006 receive up to seven years, based on tenure, of retirement health insurance at the employee premium and may purchase additional years coverage up to age 65, at 110 percent of the total District premium. Those employees retiring after June 30, 2006 may purchase health insurance at a percentage above the total District premium as follows: first eighteen months at 102 percent, next six months at 110 percent, and up until age 65 at a floating percentage to cover retiree health-care costs as its own insured group. The number of participants who received post-employment insurance benefits was 751 in the month of January 2007.

**Net Retirement Asset** – The District pays for these benefits on a pay-as-you-go basis from the General Fund. However, the District retirement benefit expense in the Government-wide Statement of Activities is equal to the Actuarial Annual Required Contribution. The difference between actual cash payments and the Actuarial Annual Required Contribution equals a liability still to be paid or an asset of amounts paid sooner than actuarially estimated. This liability or asset is recorded on the Government-wide Statement of Net Assets. The District's total net retirement asset of \$2,746,491 is calculated and summarized on the next page.

	Cash St	tipends	Health-Care		
	Amount	% Required	Amount	% Required	
Payments on District Retirement Benefits Actuarial Annual Required Contribution Change in Net Retirement Asset Beginning Net Retirement Asset	\$ 5,793,995 5,254,132 539,863	110.28% 100.00%	\$ 4,810,198 2,603,570 2,206,628	184.75% 100.00%	
Ending Net Retirement Asset	\$ 539,863		\$ 2,206,628		

**Funded Status** – The District has designated \$9,012,898 in the General Fund to help cover future obligations of these benefits; however, such designations do not qualify as "funding." The required schedule of funding progress immediately following the Notes to the Basic Financial Statements presents multiyear trend information regarding the relationship between plan assets and the actuarial accrued liability. The funded status of these benefits as of June 30, 2007, based on the September 1, 2006 actuarial study, is summarized below:

	Cash Stipends		Health-Care	
Actuarial Accrued Liability (AAL) Actuarial Value of Plan Assets	\$	54,506,047	\$	30,635,376
Unfunded Actuarial Accrued Liability (UAAL)	\$	54,506,047	\$	30,635,376
Funded Ratio (actuarial value of plan assets / AAL)		0.00%		0.00%
Covered Payroll	\$	148,774,235	\$	186,123,415
UAAL as a Percentage of Covered Payroll	36			16.46%

Actuarial Methods and Assumptions – Actuarial valuations are based on estimates that are likely to change over time. Changes in the accrued liabilities over time can be found in information immediately following the notes to the basic financial statements. Projections of benefits are based on the nature of benefits provided under the plans at the time of the actuarial valuation and the pattern of cost sharing between the District and retirees to that point. Actuarial calculations are long-term in nature, and techniques are used to reduce the short-term volatility of actuarial accrued liabilities and the actuarial valuation of assets. In the September 1, 2006 actuarial valuation, the projected unit credit using full accrual at full eligibility age method and level dollar amortization (30 years) was used. An interest rate assumption of 6.0 percent was used. The valuation assumes a health-care cost trend increase of 7.0 percent for fiscal year 2007-08 and reduces by 0.5 percent each year until 2010-11 where it maintains at 5.5 percent. Cost of health-care was estimated using the District's past experience, level of coverage, and premiums with gender and age adjustments. Demographic and other assumptions include: 1) mortality rates, 2) public education retirement rates, and 3) termination rates by age, gender, and years employed.

#### 10. DISTRICT TERMINATION BENEFITS

Up until July 1, 2006, the District offered an early retirement incentive program for certificated and administrative employees who retired with the Utah Retirement Systems. The program included incentive pay for early retirees for a maximum of four years or until the retiree reached the age of unreduced social security benefit, whichever came first. Although not offered to current or future retirees, some past retirees are still receiving this benefit. At June 30, 2007, the District's early retirement payable amount for retired employees totaled \$10,774,037 and will be paid by the General Fund. This amount was computed by accumulating the future payments to each qualified retiree. The District has designated \$10,774,037 in the General Fund to cover this obligation. During the year ended June 30, 2007, the District spent \$5,302,910 on this benefit.

#### 11. RISK MANAGEMENT

The Self-Insurance Fund, an internal service fund, was established to pay self-insurance claims for health and accident coverage provided to qualified District employees. The District carries commercial insurance, which covers catastrophic claims. The fund collects premiums, as established by the District and the plan administrator, from other District funds. The District has recorded an estimate of claims incurred but not reported of \$12,356,425 as of June 30, 2007. This liability is based on experience and information provided by the plan administrator and does not

include costs to process the claims. The following table shows a history of accrued claims payable for the years ended June 30, 2007, and 2006.

**O**I- - - - -

	2007	2006	Change
Accrued claims payable (beginning of year)	\$ 14,317,082	\$ 12,685,807	\$ 1,631,275
Claims (including incurred but not reported)	42,051,831	44,895,916	(2,844,085)
Payments of claims	(44,012,488)	(43,264,641)	(747,847)
Accrued claims payable (end of year)	\$ 12,356,425	\$ 14,317,082	\$ (1,960,657)

The District also maintains insurance coverage for general, automobile, personal injury, errors and omission, employee dishonesty, and malpractice liability up to \$10,000,000 per occurrence through policies administered by the Utah State Risk Management Fund (USRMF). The District also insures its buildings, including those under construction, and contents against all insurable risks of direct physical loss or damage with the Utah State Risk Management Fund. This all-risk insurance coverage provides for repair or replacement of damaged property at a replacement cost basis subject to a deductible of \$1,000 per occurrence. Settled claims have not exceeded the District's insurance coverage for any of the past three years. The USRMF is a public entity risk pool operated by the state for the benefit of state and local governments. The District pays annual premiums to USRMF; USRMF obtains independent coverage for insured events, up to \$25 million per location.

All District employees are covered for workers' compensation by the District's self-insured workers' compensation program. As the liability for workers' compensation as of June 30, 2007, is insignificant, no liability was recorded.

#### 12. LITIGATION

The District is involved in several minor lawsuits, which the District believes will have an insignificant effect on the District's financial position regardless of the outcome.

#### 13. GRANTS

The District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the District's independent auditors and other governmental auditors. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable fund. Based on prior experience, District administration believes such disallowance, if any, would be insignificant.

#### 14. POTENTIAL DISTRICT DIVISION

A change to Utah law passed by the 2006 Utah Legislature and modified in 2007 allows cities to form school districts. Voters in two large areas 1) West Jordan City and 2) the cities of Alta, Cottonwood Heights, Draper, Midvale, and Sandy will decide on November 6, 2007, whether to separate themselves from the current Jordan School District. This would effectively create three new school districts with three new Boards of Education with the current Jordan School District ceasing operations on June 30, 2009. The total financial impact is not known but is clearly significant. A third area of the District, South Jordan City, is currently studying whether they too would like to create their own school district.

9/1/2006	\$ -	\$54,506,047	\$ 54,506,047	0.00%	\$ 148,774,235	36.64%
Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
9/1/2006	\$ -	\$30,635,376	\$30,635,376	0.00%	\$ 186,123,415	16.46%

The September 1, 2006 actuarial study was the first to study these current benefits.

Current accounting rules and regulations only allow funds set aside in irrevocable trust funds to be included in the above schedule. The District has elected to not contribute resources to such irrevocable trust funds but rather designate a portion of the fund balance in the General Fund to help cover these obligations.

This page intentionally left blank.

#### Major Governmental Funds June 30, 2007

#### **General Fund**

The General Fund is used to account for resources which are not required legally or by sound financial management to be accounted for in another fund. Utah law defines the General Fund as the Maintenance and Operation Fund.

#### **Debt Service Fund**

The Debt Service Fund is used to account for the accumulation of resources for, and payment of, principal, interest, and related costs on general obligation bonds.

#### **Capital Projects Fund**

The Capital Projects Fund accounts for the acquisition of capital assets and construction of major capital projects not being financed by proprietary funds.

#### Nonmajor Governmental Funds June 30, 2007

#### **Special Revenue Funds**

Special revenue funds generally account for the revenues and expenditures that are restricted to specific programs or projects. The District's special revenue funds are as follows:

- Nutrition Services Fund to account for the operation of the school lunch and breakfast programs.
- Non K-12 Programs Fund to account for the operation of preschool, adult education, and community recreation programs.
- Jordan Education Foundation Fund to account for funds secured from the private sector which are used to enhance public education programs within the District.

### Proprietary Funds (Internal Service Fund) June 30, 2007

The Self-Insurance Fund is the only internal service fund used by the District and accounts for the activities associated with the District's self-insurance plan covering employee health and accident claims. Premiums are charged to the District's other funds to cover anticipated costs.

#### Fiduciary Funds (Agency Funds) June 30, 2007

Fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the District holds for others in an agency capacity. The *Student Activities Fund* accounts for the receipt and disbursement of monies of student activity organizations. These resources are not available for District programs or budgets.

# STATISTICAL SECTION

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents	Page
Financial Trends  These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	77 - 80
Revenue Capacity  These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	81 - 86
Debt Capacity  These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	87 - 91
Demographic and Economic Information  These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	92 - 93
Operating Information  These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	94 - 104
Continuing Disclosure Information  These schedules are required as part of the District's ongoing General Obligation Bonded debt disclosures and give additional information to investors about the financial trends and tax base of the District.	105 - 109

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement 34 with the fiscal year beginning July 1, 2000; therefore, schedules presenting government-wide information include information beginning with June 30, 2001.

Limitations per Utah State Statute:

- (1) Rate established annually by Utah State Legislature
- (2) Maximum rate is 0.001600
- (3) Maximum rate is 0.000400
- (4) Maximum rate is 0.000121
- (5) Maximum rate is 0.000300
- (6) Maximum rate is 0.000100
- (7) No maximum rate
- (8) Maximum rate is 0.002400
- (9) Maximum rate based on formula and changes annually
- (10) No maximum rate, but must have voter approval for bonds issued
- (a) Herriman City became incorporated in 2000.
- (b) Cottonwood Heights City became incorporated in 2005.
- (c) The K-3 Reading Program tax became available by law in 2004.

Source: Utah Foundation Statistical Review of Government in Utah as compiled from property tax records of the Utah State Tax Commission, Salt Lake County Treasurer's website and the Utah Taxpayers Association's website.

Note: The Voted Leeway and the Board Voted Leeway tax rates for 1998 were higher than the maximum tax rate of 0.000400 because the State Tax Commission allowed a one-time judgment rate to be levied to cover the cost of a refund to a large taxpayer.

Total Direct General Obligation Debt					159,285,000
Total Direct and Overlapping Principal General Ob	oligation Debt				\$377,147,191

<sup>(1)</sup> The State's general obligation debt is not included in overlapping debt because the State currently levies no property tax for payment of its general obligation bonds.

<sup>(2)</sup> Taxable value used in this table excludes the taxable value used to determine uniform fees on tangible personal property.

<sup>(3)</sup> Central Utah Water Conservancy District's ("CUWCD") outstanding general obligation bonds are limited ad valorem tax bonds. By law, CUWCD may levy a tax rate of up to 0.000400 to pay for operation and maintenance expenses and any outstanding general obligation indebtedness.

Legal Debt Margin Information Last Ten Fiscal Years June 30, 1998 through 2007

Fiscal Year Ended June 30,	Estimated Fair Market Value	Debt Limit 4% of Fair Market Value	Less General Obligation Debt	Plus (Less) Deferred Amounts	Legal Debt Margin	Percentage of Debt To Debt Limit

The general obligation indebtedness of the District is limited by Utah law to 4% of the fair market value of taxable property in the District. The legal debt margin (additional debt incurring capacity of the District) is based on estimated assessed value. As determined by the Utah State Auditor and Utah State Treasurer, the deferred amounts associated with debt issuances are to be included in the calculation of debt margin.

For debt incurring capacity only, in computing the fair market value of taxable property in the District, the fair market value of all tax equivalent property (which value includes the values of motor vehicles, watercraft, recreational vehicles and all other tangible personal property required to be registered with the State) is included as a part of the fair market value of the taxable property in the District.

<sup>\*</sup> Based on District estimates and data available to District personnel.

<sup>\*\*</sup> The District covers much of Salt Lake County. The District serves several municipalities and unincorporated areas making statistics specific to the District impracticable to obtain. Therefore, statistics for Salt Lake County are given since those are representative of the District. These statistics are published on the Utah State Department of Workforce Services website.

<sup>\*\*\*</sup> Based on building permits issued by city planning and zoning departments. Values are estimated construction costs. Source - Construction Monitor Wasatch Front Report.

<sup>\*</sup> The number of schools may not match the number of operating schools due to schools just constructed not yet opened, schools closed but still being maintained, or timing of demolition and construction of replacement schools. Each school may have a couple of buildings associated with it; however, however, for purposes of this schedule, each school campus is considered one building.

<sup>\*\*</sup> The capacity at the technical centers and the special schools is an estimate. Capacity at these schools varies based on the needs of the students and the curriculum offered.

<sup>\*\*\*</sup> Portables are not included in a school's capacity or square footage calculations.

<sup>\*\*\*\*</sup> Includes two technical centers and two alternative high schools.

Statements of Net Assets Governmental Activities Last Seven Fiscal Years June 30, 2001 through 2007 (accrual basis of accounting)

## JORDAN SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

### Note 1. General

The schedule of expenditures of federal awards presents the activity of all federal award programs of Jordan School District (District). The District reporting entity is defined in Note 1 to the District's basic financial statements. All federal awards received directly from federal agencies as well as federal awards passed through from other government agencies are included on the schedule.

## Note 2. Basis of Accounting

The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting for awards received by governmental funds as described in Note 1 to the District's financial statements.

Most of the federal awards are expenditure-driven grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met; grants received in advance are recorded as deferred revenue until earned. Donated food commodities are recorded at fair value in the Nutrition Services Fund as an inventory asset and federal revenue when received. Donated food commodity inventories are recorded as expenditures when they are transferred to schools for consumption.

## Note 3. Relationship to District's Financial Statements

Federal awards expended on the schedule of expenditures of federal awards for the year ended June 30, 2007 are reported in the District's financial statements as federal government revenues as follows:

General Fund	\$ 24,220,492
Capital Projects Fund	360,000
Non K-12 Programs Fund (Special Revenue Fund)	1,604,268
Nutrition Services Fund (Special Revenue Fund)	8,722,507
Total governmental funds	34,907,267
Medical Assistance Program grant monies received	
from State of Utah Department of Health	(3,107,758)
Total federal revenue reported on the Schedule	
of Expenditures of Federal Awards (SEFA)	\$ 31,799,509

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards* 

Board of Education Jordan School District

We have audited the financial statements of Jordan School District as of and for the year ended June 30, 2007 and have issued our report thereon dated September 14, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

## **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Jordan School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jordan School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Jordan School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects an entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by an entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Jordan School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express

such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management of Jordan School District in a separate letter dated September 14, 2007.

This report is intended solely for the information and use of the Board of Education, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by

Squis Company, PC

September 14, 2007

Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

Board of Education Jordan School District

#### Compliance

We have audited the compliance of Jordan School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. Jordan School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Jordan School District's management. Our responsibility is to express an opinion on Jordan School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Jordan School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Jordan School District's compliance with those requirements.

In our opinion, Jordan School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

#### **Internal Control Over Compliance**

The management of Jordan School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Jordan School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Jordan School District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of

control deficiencies, that adversely affects an entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

#### **Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jordan School District as of and for the year ended June 30, 2007, and have issued our report thereon dated September 14, 2007. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise Jordan School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Education, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# Independent Auditor's Report on Legal Compliance in Accordance with the *Utah State Legal Compliance Audit Guide*

Board of Education Jordan School District

We have audited the financial statements of Jordan School District for the year ended June 30, 2007 and have issued our report thereon dated September 14, 2007. As part of our audit, we have audited the District's compliance with the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; and special tests and provisions applicable to each of its major state assistance programs as required by the *State of Utah Legal Compliance Audit Guide* for the year ended June 30, 2007. The District received the following major assistance programs from the State of Utah (each passed through the State Office of Education):

Minimum School Program

School Building Program

Driver Education

Correctional Institution Education Programs

The District also received nonmajor state grants, which are not required to be audited for specific compliance requirements; however, these grants were subject to test work as part of the audit of the District's financial statements.

Our audit also included test work on the District's compliance with those general compliance requirements identified in the *State of Utah Legal Compliance Audit Guide* including:

Public Debt
Cash Management
Purchasing Requirements
Budgetary Compliance
Truth in Taxation and Property Tax Limitations
Other General Compliance Issues

The management of the District is responsible for the District's compliance with all compliance requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

The results of our audit procedures disclosed no instances of noncompliance with the requirements referred to above.

In our opinion, Jordan School District complied, in all material respects, with the general compliance requirements identified above and the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; and special tests and provisions that are applicable to each of its major state assistance programs for the year ended June 30, 2007.

#### Letter to Management

September 14, 2007

Board of Education
Jordan School District

In planning and performing our audit of the financial statements of Jordan School District for the year ended June 30, 2007, we noted certain matters for your consideration. This letter summarizes our comments and suggestions regarding those matters. This letter does not affect our report dated September 14, 2007 on the financial statements of the District. Also, reportable conditions and material internal control weaknesses, if any, are included in our reports dated September 14, 2007, in accordance with *Government Auditing Standards* and the provisions of Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

Individual school accounting – We visited approximately one-third of the schools throughout the District this year. We focused on the areas of financial accounting, equipment management, and membership accounting during our visits. Certain minor exceptions with established guidelines and procedures were noted. We discussed these exceptions with school personnel at the completion of each visit. We have also reported our findings to management. We encourage continued training of principals and secretaries involved with individual school accounting. We recommend subsequent review of the exceptions noted.

Views of Responsible Officials – The District will continue to provide financial training and support to school principals and secretaries. All exceptions to established District guidelines and procedures will be reviewed with the school principals by District administration.

We will review the status of these comments during our next audit engagement. We have already discussed in detail these comments and suggestions with management and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing recommendations. We appreciated being able to work with District personnel in our audit. We note those we worked with in the audit and reporting process were very responsive and helpful. We also noted management's ability and sensitivity to display and communicate an appropriate attitude regarding internal control and the financial reporting process.
